ABOUT CUSTOM COMFORT MATTRESS

HAND CRAFTED MATTRESSES

Custom Comfort Mattress designs and handcrafts each mattress exclusively for your specific needs. We collaborate with you to design each mattress to keep your brand identity, your guests' experience and your budgetary requirements top of mind in the process.

100% USA MADE WITH USA MATERIALS

We are a USA company with over 30 years experience in custom mattresses.

All of our mattresses are 100% USA made in Southern California. By using the finest USA sourced materials available we create mattresses that provide the lowest carbon footprint possible.

NATURAL MATERIALS FOR HEALTHIER MATTRESSES

By using fine materials we provide your guests with a healthier sleep experience. 100% California grown cotton, Natural Talalay latex (made from the sap of the rubber tree), soy-based foams, natural wool insulation, USA made fabrics and USA manufactured steel are all components of our hand crafted mattresses - giving your guests the utmost in regeneration and rejuvenation.

TRADITIONAL HAND CRAFTSMANSHIP + TODAY'S TECHNOLOGY

We create each mattress by hand- blending our time honored upholstery techniques and craftsmanship with today's technology. We combine our traditional natural cotton upholstery with soy based and natural latex foams to utilize the many combinations of materials available to us. We hand tuft our upholstery and machine quilt our fabrics. These combinations allow us to build a supportive, yet contouring mattress with a luxurious, cool & comfortable sleep surface. The customized creations are limitless!
