

# Makena. A Place of Abundance.

Makena. The Hawaiians revered its sacredness and named it so, for it truly is a land of abundance. Lots of sunshine. Beautiful beaches. 1,800 acres of pristine surroundings still in all its untouched splendor and glory. From mountain to sea, Makena is an extraordinary place where whales frolic, where the sea is warm and inviting, and where Hawaiian history was made. The Makena Beach & Golf Resort continues to perpetuate a Hawaiian sense of place to be enjoyed by all who reside or visit.
