

Restoring The Inn

Restoring The Inn... A Labor of Love in the Spirit of Years Gone By...

The Inn at Rancho Santa Fe is in the midst of a comprehensive \$12 million renovation. Inspired by its historical past and beautiful surroundings, The Inn will rekindle memories while offering compelling new and unique experiences. It is our desire to be “the Essence of Rancho Santa Fe” and “at the Heart of the Community”.

With no interruption in service, all guest rooms, public areas, meeting facilities, pool cabanas, gardens, outdoor function spaces, grounds and landscaping are being upgraded.

All of The Inn’s guest cottages are being fully redesigned while featuring décor representative of Rancho Santa Fe, while offering the modern comfort that discerning travelers have come to expect from a luxury hotel. Guest rooms will be transformed into two distinct styles based on the location of the room: Country Elegance and Starlet Nostalgia.

The Inn will open a new restaurant adjacent to the terrace and offer a “Comfortable Sophistication” ambience, while once again incorporating its indigenous history and the Rancho Santa Fe lifestyle.

A new 3,000 square foot full service spa and relaxation courtyard will offer guests and residents a new sanctuary to relax and be pampered.

Other areas of renovation include: The Inn’s arrival experience at the front parking area, new meeting space and event lawns, herb and produce gardens, new private dining rooms, and The Inn’s historic Living Room (Lobby).

All of us at The Inn are honored to be a part of such a historical part of the community, and we are proud of a renovation that will help in restoring its charm and character.

We hope you’ll join us in early July to experience the spirit of The Inn, while sharing old, and creating new memories...
